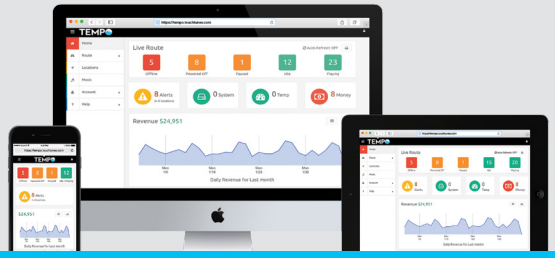
TEMPO

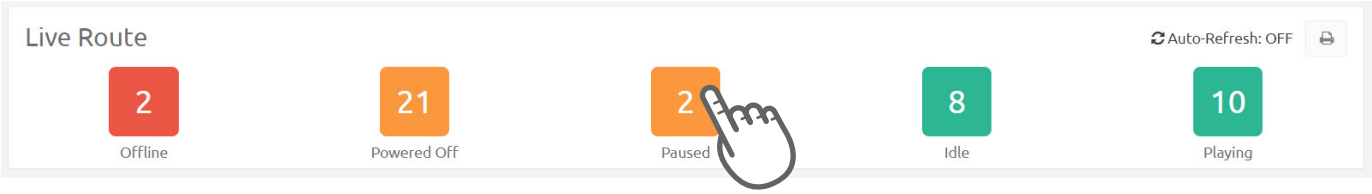
QUICK GUIDE



Tempo is TouchTunes' all new route management tool! Here is a quick guide to the Top 5 things you should know. Call your sales rep for a full training!

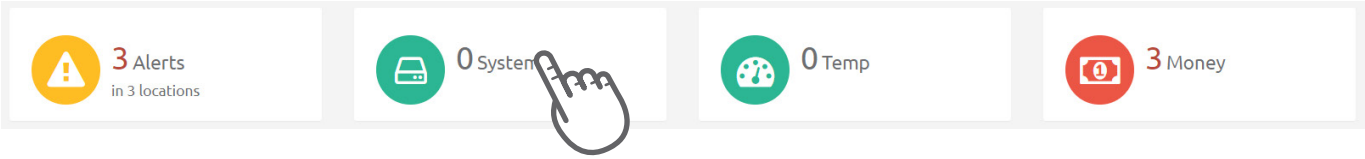
HOME ▸ LIVE ROUTE

See how many of your jukeboxes are Off, Paused, Offline, Idle or Playing. Click the number to show a detail of jukeboxes with location information, time stamps and remote tool shortcuts when applicable (e.g. **Unpause** and **Power On**).



HOME ▸ ALERTS

A summary of all outstanding technical alerts, broken down by type (System, Temp and Money). Clicking on an alert button brings up a detail of jukeboxes with alert information and time stamps. Further troubleshooting tips can be found by clicking an alert.



HOME ▸ CASHBOX

An at-a-glance overview of current outstanding cash for each venue, since their last collection. Clicking the detail will show a map of where your money is, and a report listing location information, last collection date and cash / mobile / credit card breakdowns to assist with collection management.

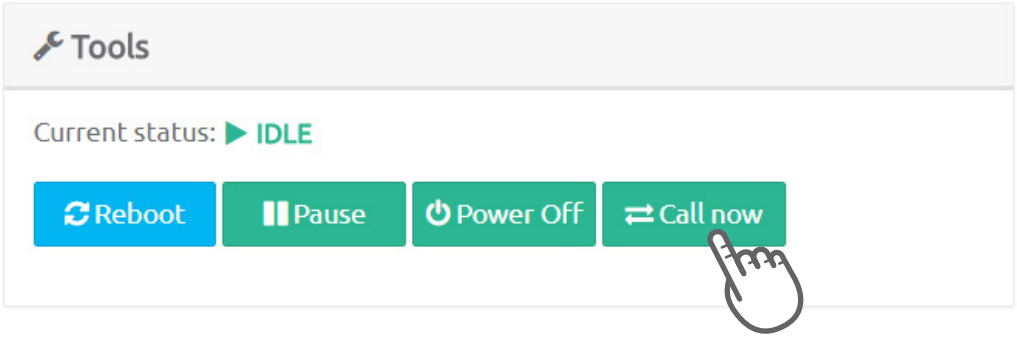
LOCATIONS ▸ SELECT A LOCATION ▸ TECHNICAL ▸ HARDWARE

Tempo's Remote Tools allow you to Power on/off a juke, Unpause/pause a juke, reboot or force a call. These tools allow you to maximize uptime and revenues and often times eliminate service calls by resolving issues remotely.



MUSIC ▸ SELECT A LOCATION ▸ FAVORITES & FILTERS

Manage 1-Credit Favorites playlists, view stats on song play, top songs, etc., use **Quick Manage** to add or remove songs from your whole route in a few clicks, and create/schedule filters to set the perfect vibe for your venue.
